To: Kahler, Pam
Cc: Bruhn, Mike; 'la.maroney@hosp.wisc.edu'
Subject: SB 288 amendments
Importance: High

Hi Pam,

Amendment 1. We're just leaving LRBA1126/1 (out-of-network costs) alone for now.
Amendment 2. Please add the "therapeutic intent" language on page 2, section A, items 1-3 from the link below. Please do not add anything about the 1-7 "desirable characteristics" language found right after the therapeutic intent language. I will return the stripes of LRBA1125/1 to you.
Amendment 3 (which doesn't exist yet): Please remove the reference to institutional review boards on page 4 lines 19 thru 21 of SB 288.

Thanks! - Jay

Subject: Compromise
Importance: High

Greetings:

Our side has conferred on the 3 issues discussed at the meeting yesterday and **accept nearly all of the changes** requested by the two health plan groups.

1. **Out of network. We Accept.** We are fine with the amendment as drafted, but because there now seems to be a possible difference of opinion between the two health plan groups, that needs to be worked out between them and hopefully quite quickly.

2. **New Medicare Language. We Accept in Part.** http://www.cms.hhs.gov/pf/printpage.asp?ref=http://63.241.27.79/manuals/06_cim/ci30.asp?#_1

I have attached the Medicare language link. On Page 2, Section A, 1-3 we are fine with having that drafted. That is really the heart of the therapeutic intent. Some of us believe that this is not needed because it's already explained in the bill. For example, of course this bill only applies to people with cancer as referenced in #3, but we hear the other side's concerns, so we are fine with adding that language.

We believe that items 1-7 would be difficult to draft. For example "Clinical trials also should have the following desirable characteristics". We believe much of what is in 1-7 is covered by the approving bodies or is already covered in the bill. Please let us know if there is something in 1-7 that you absolutely must have and please explain why it's needed and why you don't think it's already covered in the bill.

3. **IRB. We accept.** We are fine with removing the IRB reference on Page 4, line 19.

10/14/2005

As you can see, we have agreed to nearly every change requested. We see absolutely no reason why the October 20 executive action needs to be further delayed. If WALHI members need to see LRB drafted language before they can decide then that should have been stated at our very first meeting on Sept. 13. Everyone has had the Medicare language since 9-13. I hope that items 2 and 3 can be put into drafting. Thanks.
